Tasteful design, combined with a unique combination of style, value and preferred amenities make travel in the Sunseeker comfortable and loads of fun. Sunseeker’s unique split level design provides maximum headroom in the living area, while still offering pass-through storage on every floorplan. Plus, all Sunseekers are “Certified Green” by TRA Certification.

**STANDARD SERIES TOP FEATURES**

- Lane departure warning system
- 7' Ceiling height
- Crowned fiberglass roof
- Trekker cap option with built-in entertainment center and storage IPO overhead bunk
- 2” Thick gel coat sidewalls with lightweight composite waterproof material
- Firestone Ride-Rite™ suspension
- Heated enclosed tanks
- Water filtration system
- Electric awning with LED lights
- Valve extensions for rear tires
- 7,500 Lb. tow rating (Ford only)
- Two cab-over windows in bunk area (N/A Trekker cap option)
- Upgraded stainless steel appliances with 1.3 cu. ft. microwave
- 40” 12V LED TV
- Standard side view and back-up cameras
- Slide out awning toppers
- Surround sound with exterior speakers
- CarPlay/Android Play Sony® stereo
- Maxx Air vent with cover
- Solar prep

3050S Shown in Khaki Decor with Rustic Cherry cabinetry

Shown with the low profile, seamless Trekker cap for aerodynamic styling and improved fuel economy.
NEW Voyager® VBSD1
Blind Spot Detection System

- Specifically engineered to enhance Class C motorhome safety
- Visual and audible alerts warn drivers of obstacles not visible in the rear view mirror
- Uses radar detecting sensors on the rear corners of the motorhome that communicate with LED beacons in the cab
- Beacons remain lit until the blind spot is clear
- Beacon flashes with an audible alert when turn signal is engaged

Lane Departure Warning System
(N/A on LE and Transit models)

- NEW Voyager® VBSD1 Blind Spot Detection System
- Specifically engineered to enhance Class C motorhome safety
- Visual and audible alerts warn drivers of obstacles not visible in the rear view mirror
- Uses radar detecting sensors on the rear corners of the motorhome that communicate with LED beacons in the cab
- Beacons remain lit until the blind spot is clear
- Beacon flashes with an audible alert when turn signal is engaged
**Standard Series Floorplans**

**GVWR (Gross Vehicle Weight Rating)** - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

**GAWR (Gross Axle Weight Rating)** - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

**GCWR (Gross Combined Weight Rating)** - is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may vary. Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

**CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

**Estimated Average based on standard build optional equipment.**

</table>
This holding tank vent cap eliminates odors and gases from the holding tanks and exhausts them out the roof, without the use of costly chemicals.

Large panoramic windows with blackout shades for plenty of fresh air and natural light.

LED lights generate almost no heat compared to incandescent lights and use substantially less power.

Winterizing tube provides easy access for quick maintenance includes bypass valve.

Sunseeker is appointed with rich residential style hardwood cabinetry with ball bearing drawer glides.

Two batteries in a single housing for easy access. (One battery LE and Transit)

Progressive Dynamics patented 4-stage Charge Wizard converter system has been shown to increase battery life by 2 to 3 times or more. It constantly monitors battery usage and voltage, then selects one of four operating modes to properly charge and maintain the battery. Boost, Normal, Storage and Equalization.

This Winegard HD digitally amplified antenna enhances reception.

This Winegard HD digitally amplified antenna enhances reception.

Sunseeker is equipped with a residential mattress for a good night’s sleep.

The overhead bunk is rated for 440 lbs. and includes a cab over safety net.

Outside speakers

Seamless front cap for enhanced aerodynamics

This compact unit filters water for the entire coach, eliminating unwanted contaminants and odors, ensuring safe drinking water for you and your family. (N/A LE)

This holding tank vent cap eliminates odors and gases from the holding tanks and exhausts them out the roof, without the use of costly chemicals.
Comfortable sofa with footrests, folding armrests and drink tray converts to a convenient sleeping area.

Heated/enclosed holding tanks use warm air from the furnace to protect tanks and valves. (N/A 2250 SLE, MBS and Transit)

All models include Atwood ducts for high performance air flow throughout the coach and front cabover.

Extend and retract the power awning with the push of a button. Both arms are adjustable to get just the right angle.

The Sony touch screen in-dash stereo system pairs up with your smart phone for access to Apple CarPlay/Android GPS and other applications. (N/A on Transit or LE)

This multimedia entertainment system features AM/FM/DVD, Bluetooth, plus outside speaker control.

Maxx Air Fan recirculates air throughout the entire coach.

Sunseeker’s entry step is integrated into the sidewall. No more slippery, or damaged power steps. (N/A MBS)

Durable, easy to clean (R-18) crowned fiberglass roof sheds water and doesn’t cause black streaks like a rubber roof.

Atwood 18 GPH water heaters (6 gallon tank) out perform traditional 10 and 12 gallon tank water heaters. They’re also 50% lighter and have no anode rod to replace.

Firestone Ride-Rite Advantages include adjustable air springs providing an improved ride, and a better way to balance loads.
